Grape harvest

Vinification

The grapes were harvested manually. The grapes were macerated at low temperatures and the pressing was done cold. The must was fermented in stainless steel tanks at controlled temperatures.

Wine philosophy

Cabernet Sauvignon expresses vigor, virility, strength, which is why it is nicknamed among connoisseurs as the "King of red wines". In this young wine, without any addition of wood, you will discover the qualities of this variety in the "expression" of the terroir from Domeniile Averești

Tasting notes

An intense ruby-red wine, Cabernet Sauvignon de Averești impresses with its soft aromas of spices and dried grass, complemented by fruity notes of sour cherries, cherries and raspberries. The taste is ample, with tannins that give it complexity and a pleasant, masculine astringency. On the palate, refreshing and fruity aromas of blackberries, blackcurrants, mint and red bell pepper are revealed. Its body is fresh and supple, and the aftertaste is medium, leaving a pleasant and balanced sensation. Its "au naturel" character is due to the fact that the wine was not kept in wooden barrels.

Culinary associations

Served with game and other flavorful steaks.
