Grape harvest

The grapes were harvested in 2 stages, characterized by different levels of ripeness/ripening.

Vinification

The grapes were harvested manually. The grapes were macerated at low temperatures and the pressing was done cold. The must was fermented in stainless steel tanks at controlled temperatures.

Wine philosophy

A unique blend that starts in the vineyard because the percentages of the wine are found in the plantation. Basically, the grapes are picked together, vinified together and create this wine in which the flavor, freshness and body of Feteștii Regale are perfectly complemented by the velvety notes of Feteștii Albe.

Tasting notes

Pale lemon-yellow wine with aromas of wildflowers, vines and acacia, followed by fruity notes of green apples and lemon peel. The supple texture is the result of the balance between acidity, alcohol and a friendly sugar residue. The aromas are a mix of grapefruit, lime juice and wildflowers, with quince, raisins and yellow apples at the end. The aftertaste is medium, and the demi-sec vinification adds a refreshing note, ideal for various occasions. This delicate wine highlights the features of two "unripe" white varieties.

Culinary associations

Along with white meat grill, pasta with light sauces, cheeses and pastries.
