Range Description

The "Selection" range offers the ideal wines to accompany important events in life. These elegant, carefully selected wines are perfect to complement moments spent with loved ones. The collection includes a series of individually crafted and carefully selected wines to cover various market segments, with a high turnover.

Grape harvest

The grapes were harvested in 2 stages, characterized by different levels of ripeness/ripening.

Vinification

The grapes were macerated at low temperatures, and the pressing was done cold. The must was fermented in stainless steel tanks at controlled temperatures.

Wine philosophy

At Domeniile Averești we have revived a unique variety representative of Husi Vineyard, whose organoleptic qualities recommend it for festive meals and authentically lived moments.
