

FETEASCĂ NEAGRĂ DE AVEREȘTI - NATIVUS

Harvest 2018

| | |
|----------------------|---|
| Variety | Fetească Neagră - Protected Designation of Origin "Huși" |
| Wine Type | Dry Red |
| Area | Domeniile Averești – Huși Vineyard |
| Vine - Grapes | The grapes were harvested manually at a content of 240g / l of sugar when the seeds became ripe. The grapes were loosened from the axis without being crushed and placed into the maceration tanks. |
| Wine-making | Maceration took place at a temperature of 21-22 ° C for 15 days with a slight cooling, initially at a temperature of 14 ° C. To the end of the maceration-fermentation when the wine is passed into the fermentation tanks, the malolactic fermentation is initiated at a temperature of 18 ° C. |
| Tasting notes | Complex flavours, plums, even marmalade and cherry compote in the foreground, but also with fine smoke nuances in the background. A taste with rustic notes, like any red grapes cultivated in colder areas, dominated by red berries and black cherries. The smell of white pepper – characteristic of red wines obtained in altitude areas. |
| Best served | Slightly chilled (12-14 ° C), well-matched with spicy meats, broiled meats, mutton dishes, pork ribs. |

Wine

| | |
